BEFORE THE
SHORELINES HEARINGS BOARD
STATE OF WASHINGTON

IN THE MATTER OF THE ISSUANCE
OF A SUBSTANTIAL DEVELOPMENT
PERMIT BY THE CITY OF ANACORTES
TO SKYLINE MARINA, INC.,

CHARLES L. WELCHKO, ROBERT A.
WARFIELD, E.L. KNOWLES, SAVE
FLOUNDER BAY, AND LLOYD J. SELENE,

Appellants,

V.

CITY OF ANACORTES AND SKYLINE
MARINA, INC.,

Respondents.

SHB Nos. 79-45, 79-47,
79-49 and 79-51

FINAL FINDINGS OF FACT,
CONCLUSIONS OF LAW AND ORDER

This matter, the request for review of a substantial development permit issued by Anacortes to Skyline Marina, Inc., was brought before the Shorelines Hearings Board, Nat W. Washington, Chairman, Chris Smith, Robert S. Derrick, and A. M. O'Meara, Members, on February 14, 1980 in Anacortes, Washington. Hearing Examiner William A. Harrison presided.

Appellants appeared by their attorney, J. Richard Aramburu;

1 Respondents Skyline Marina, Inc. appeared by their attorneys Richard
2 U. Chapin and John T. Rassier; Respondent City of Anacortes appeared
3 by Stephen E. Mansfield, City Attorney.

4 Witnesses were sworn and testified; exhibits were examined.
5 Having heard the testimony, having read and heard the arguments of
6 counsel (including the oral argument of February 15, 1980 before
7 Washington, Derrick and O'Meara, taped and heard by Smith), and being
8 fully advised, the Shorelines Hearings Board makes these

9 FINDINGS OF FACT

10 I

11 On August 16, 1979, Respondent Skyline Marina, Inc. (Skyline)
12 filed with the City of Anacortes an application for a substantial
13 development permit under the Shoreline Management Act of 1971. The
14 proposed development consisted of 129 moorages to be located within
15 Flounder Bay. Access to the proposed development would be via an
16 existing structure which straddles the shore and to which the
17 proposed development would be connected.

18 II

19 The Anacortes Planning Commission is empowered to approve or deny
20 substantial development permits. Anacortes Shoreline Master Program
21 (Master Program), Section 11(d), p. 7. The Planning Commission
22 convened a public hearing on the proposed development on October 10,
23 1979, while the Planning Commission consisted of six members, of which
24 four were present. This public hearing was then continued to October
25 17, 1979, when Mr. Robert Hogg was introduced as a newly appointed
26 member of the Planning Commission.

27 FINAL FINDINGS OF FACT,
CONCLUSIONS OF LAW AND ORDER

1 Mr. Hogg had earlier testified before the Anacortes City Council
2 in favor of rezoning the site in question from residential to
3 commercial marine. His testimony was reported in the Anacortes
4 American of Wednesday, September 13, 1978, as follows:

5 "Keeping that area low-density residential makes no sense",
6 he told Council. "It was obviously a mistake made when the
plans were drawn up. It should be zoned commercial marine".

7 Mr. Hogg leases storage for his boat from Skyline under an agree-
8 ment which Skyline may terminate on 30 days written notice. Such
9 a lease is valuable and difficult to obtain.

10 Appellant Knowles knew of Mr. Hogg's Skyline lease at the time of
11 the Planning Commission hearings, but appellants Warfield and Selene
12 did not.

13 At the conclusion of the public hearing on October 17, 1979, the
14 Planning Commission approved Skyline's application for a substantial
15 development by a vote of 4-3 with Mr. Hogg voting approval.

16 III

17 The minutes of the Planning Commission meeting of October 10,
18 1979 recored advice from City staff to the Planning Commission that:

19 "...the proposal...is consistent with the Shoreline Master
20 Plan, Urban 2 zone which encourages development of water
activities."

21 No other legal standard was advanced for acting upon Skyline's
22 application for a substantial development permit prior to the
23 Planning Commission's approval.

24 However, the Master Program which sets forth the Urban 2 and
25 other environmental designations declares:

26 "This Master Program applies to those shoreline areas extending

27 FINAL FINDINGS OF FACT,
CONCLUSIONS OF LAW AND ORDER

landward 200 feet from the ordinary high water mark of all
marine waters and associated wetlands and Cranberry Lake."
Introduction, fourth unnumbered page.

This declaration is buttressed by the Master Program's Shoreline Area
Designations Map (appearing after page 14) which sets forth the
environmental designations and states: "Jurisdiction is 200 feet
landward from shore."

The Master Program therefore provides no environmental designation
for Flounder Bay, the site of the proposed development.

IV

Any Conclusion of Law which should be deemed a Finding of Fact is
hereby adopted as such.

From these Findings the Board comes to these

CONCLUSIONS OF LAW

I

Shoreline master programs must meet the guidelines adopted by the
State Department of Ecology. RCW 90.58.060 and .090. These guide-
lines provide:

Environments. In order to plan and effectively manage shoreline
resources, a system of categorizing shoreline areas is required
for use by local governments in the preparation of master
programs. The system is designed to provide a uniform basis
for applying policies and use regulations within distinctively
different shoreline areas. To accomplish this, the environmental
designation to be given any specific area is to be based on
the existing development pattern, the biophysical capabilities
and limitations of the shoreline being considered for develop-
ment and the goals and aspirations of local citizenry.

The recommended system classifies shorelines into four
distinct environments (natural, conservancy, rural and urban)
which provide the framework for implementing shoreline policies
and regulatory measures. (Emphasis added) WAC 173-16-040(4).

"Shoreline" is defined within the Shoreline Management Act to include

FINAL FINDINGS OF FACT,
CONCLUSIONS OF LAW AND ORDER

1 all of the water areas of the state, together with lands underlying
2 them. RCW 90.58.030. Because it provides no environmental desig-
3 nation, the Master Program before us does not encompass Flounder Bay's
4 water area, the site of the proposed development.

5 This matter should therefore be remanded to the City of Anacortes
6 for reconsideration of the proposed development under either:

- 7 a. the policy of RCW 90.58.020 and the Guidelines and
8 regulations of the Department of Ecology; or
9 b. an amended Master Program which encompasses Flounder Bay.

10 II

11 This matter consists of separate appeals which were consolidated
12 for hearing. Appellants Warfield and Selene did not waive their oppor-
13 tunity to advance the appearance of fairness issue before this Board.

14 The test to be met where the appearance of fairness is at issue
15 was set forth as follows:

16 Would a disinterested person, having been apprised of the
17 totality of a board member's personal interest in a matter
18 being acted upon, be reasonably justified in thinking partiality
19 may exist? If answered in the affirmative, such deliberations,
and any course of conduct reached thereon, should be voided.
Swift v. Island County, 87 Wn. 2d 348, 361; 552 P. 2d 175,
183 (1976).

20 We conclude that Mr. Hogg's prior public position on the suitability
21 of the site for commercial marine use added to the potential for
22 influence provided by Skyline's ability to continue or terminate
23 Mr. Hogg's moorage would leave a disinterested person reasonably
24 justified in thinking partiality may exist. Although there is no
25 evidence that Skyline did influence Mr. Hogg, or acted improperly
26 in any way, this is sufficient to constitute a violation of the

27 FINDINGS OF FACT,
CONCLUSIONS OF LAW AND ORDER

1 appearance of fairness doctrine.

2 On remand, Mr. Hogg should therefore not participate in the
3 reconsideration of the proposed development.

4 III

5 Any Finding of Fact which should be deemed a Conclusion of Law
6 is hereby adopted as such.

7 From these Conclusions the Board enters this

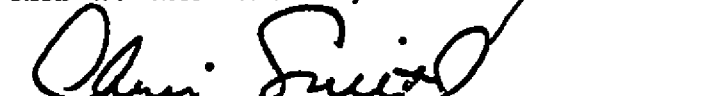

8 ORDER

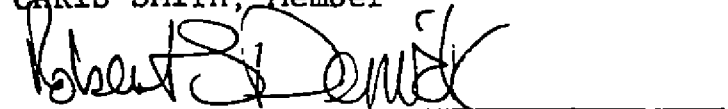

9 The substantial development permit issued by the City of
10 Anacortes to Skyline Marina, Inc. (Application No. 89) is hereby
11 reversed and remanded to the City of Anacortes for further proceedings
12 consistent with the above findings and conclusions.

3 DONE this 7th day of March, 1980.
